### Description

When inputing any letter in the search bar, most relevant communities or people will be displayed in the search query below.

- The recommended topic will be represented by the word inputed by the user and how many people follow the subject.

### Preconditions:

- User needs to access the site <https://www.reddit.com/>
- user needs any browser install on the device
- User needs access to internet

### Acceptance criteria:

- The search bar is accesible on the top of any page of the website
- Clicking on the search bar will bring the list of trending topics
- If the user wrote in the search bar "r/" at the beginning of the search, only subreddit communities will appear in the search results
- If the user wrote in the search bar "u/" at the beginningof the search, only people will appear in the search results
